4.4 Encouraged practice for official LETTA use

- **Academic.** LETTA recognises that social media has the potential to support and advance learning opportunities and encourages its use in this way.
- **Collaboration.** Social media can provide opportunities to support collaborative learning and opportunities to communicate. It can also be a very cost effective means to provide and receive information.
- **Alumni.** LETTA recognises the opportunity to communicate with existing trainees and alumni through social media to develop an on-going relationship with them.
- **Teacher Unions.** LETTA understands that Teacher Unions and Student University Unions will want to use social media to maximise the exposure of its services.

- **Search results.** Search engines like Google and Bing are increasingly indexing and ranking information from social networks. The more presence we have on social media sites, the higher our ratings become in online search results.

4.5 Other potential uses

- LETTA will not refer to social networking sites when assessing trainee applications and job applications unless such sites are specifically highlighted in the application. LETTA will assess all applications only on the information provided.
- LETTA may refer to social networking sites when investigating breaches of discipline, eg., cheating, harassment, anti-social behaviour.
- LETTA may monitor forums and blogs to gain indirect feedback on LETTA courses. LETTA may post replies on forums or blogs to answer queries or address factual mistakes, but would generally take a cautious approach before getting involved in contentious issues.
- LETTA reserves the right to take any necessary steps to protect its facilities, staff and trainees from malware (malicious software) including blocking sites where this is an issue.
- If a complaint is received that a trainee or staff member is being bullied or harassed then actions may be taken via appropriate procedures.
